

SUMMER ART CAMPS 2008 with Julia Tedesco

The Art program that I offer to children is one of the most comprehensive of its type. I have a degree in art history with a minor in painting. Students really get a kick out of *learning to see to draw* !! Through the course of instruction I show students one and two point perspective as well as interior perspective, using themes that are interesting to young minds. We talk about negative space, shadows, highlights and ‘cast’ shadows. The students learn to blend colors with colored pencils, pastels and paints. We explore facial proportions, giving the students the confidence to draw a person or animal. I try to bring up artists of historical importance whenever possible and especially if it ties in with the subject matter. During the course of the day, I give the student the freedom to make choices and to think about the composition and what is visually and aesthetically pleasing to them as an artist! The classes are really about *drawing, seeking spatial relationships and observation*. The Thursday class ends with a 3 dimensional diorama that is an all time favorite.

This Summer I will be conducting 6 art camps at **LA DERA ROOM C-2**
